

ICERA APPOINTS CHIEF TECHNOLOGY OFFICER

Bristol, UK, 25 September 2007. Icera Inc, has today announced that Steve Allpress has been appointed Chief Technology Officer, responsible for driving the long term technology strategy of the company. Steve will still continue in his role of Vice President Modem Software.

Before co-founding Icera in 2002, Steve was Chief Research Fellow at Toshiba Laboratories. Prior to this, he was instrumental in establishing Broadcom Corporation's cellular business in the US, where he developed intellectual property for GSM/EDGE systems. From 1993-2000, Steve was Technical Manager at Lucent's Bell Laboratories, responsible for CDMA ASIC development, as part of its cellular infrastructure business. Here, he developed intellectual property for Lucent's basestation products and made numerous contributions to the development of third generation cellular standards.

About Icera Inc

Icera is a fabless semiconductor company, delivering the highest performance HSPA baseband modems and platform solutions to cellular datacard and phone OEMs. Founded in 2002, Icera is headquartered in the UK, with design locations in Bristol and Cambridge UK and Sophia Antipolis, France, sales offices in Europe, Japan and USA and representative support in Korea.
