NVIDIA Trademark and Logo Usage Guidelines

The NVIDIA Trademark and Logo Usage Guidelines includes information regarding when it is appropriate to use each of the trademarks and logos, when to use various versions of the logo, the correct way to use the trademarks in text, minimum sizing and spacing requirements, and color details.

General Requirements for Logo Use

NVIDIA Logo
Primarily used to show a relationship with NVIDIA, such as a joint sponsorship at an event or partnership.

Product Logos
These include NVIDIA, GeForce GTX, GeForce RTX, Quadro, Quadro RTX, SHIELD, Tesla, Tegra, and NVS. May be used to promote partner products that include the corresponding NVIDIA products.

Technology Logos
These include PureVideo, PhysX, 3D Vision, GPU Boost, TXAA, Maximus. Other technology logos require separate license agreements at this time.

- May be used to promote hardware products that include the corresponding technology as well as software products that support the technology.
  (Note: PureVideo HD, 3D Vision, and Maximus require a separate agreement.)

Program Logos
This includes “Graphics by NVIDIA®”. Other program logos require separate license agreements at this time.
“Graphics by NVIDIA” may be used to promote products that contain NVIDIA GPUs (GeForce or Quadro). Permission must be granted by NVIDIA prior to use. Related stickers are available for use on PC systems.

In general, multiple NVIDIA logos may not be used by licensees unless express permission has been granted by NVIDIA in writing or through current guidelines.
Use of NVIDIA Trademarks in Partner Product Names

As part of the licensing agreement, NVIDIA allows partners to use the GeForce GTX trademarks in partner product names when certain guidelines are followed.

Example: Partner GeForce® GTX 680

For all other GeForce product (GeForce GT), NVIDIA must precede GeForce.

Example: Partner NVIDIA® GeForce® GT 610

The requirements for inclusion of “GeForce GTX” in partner product name include:
- The registration symbol or “®” must be included directly after the trademark that is being used (i.e., Partner GeForce® GTX 680.)
- Trademark attribution must appear on packaging stating: “GeForce is a registered trademark of NVIDIA Corporation.”
- The entire product name must be in the same font.
- NVIDIA’s trademarks may not be combined or incorporated with other terms to form combination or composite marks.

Example: MaxGeForce or GeForce-OC

Approved Nouns for use with Trademarks

- GeForce, Quadro: GPU, graphics processor, processor
- Tesla: Processor, computing processor
- PureVideo, PhysX, 3D Vision, 3D Vision Surround, GPU Boost, TXAA, FXAA, Maximus: Technology
