California Corporate Greenhouse Gas Reporting: Fiscal Year 2026 Disclosure

The Climate Corporate Data Accountability Act Senate Bill (SB) 253 requires covered business entities to disclose specified information regarding annual greenhouse gas ("GHG") emissions. For NVIDIA, this includes NVIDIA Corporation ("NVIDIA") and its subsidiary NVIDIA International Inc. This report is presented at the NVIDIA level. NVIDIA calculates and reports its GHG inventory at the consolidated accounting group, covering NVIDIA Corporation and its wholly owned subsidiaries, including NVIDIA International Inc.

This disclosure is current as of November 6th, 2026. The figures and methodology presented in this report are directly derived from NVIDIA's existing sustainability publications, including NVIDIA's Fiscal Year 2026 Sustainability Report and the corresponding Report of Independent Accountants.

SCOPE 1 AND 2 GHG EMISSIONS

NVIDIA's Scope 1 and Scope 2 GHG emissions inventory covers our fiscal year 2026, which corresponds to the period January 27, 2025, to January 25, 2026.

Scope 1 and 2 GHG emissions (mtCO2e)

Metric	Fiscal year 2026
Scope 1	9,822
Scope 2 (location-based)	308,891
Scope 2 (market-based)	568

METHODOLOGY AND ASSURANCE

NVIDIA used the operational control approach to account for and report the metrics. For Scope 1 and 2 emissions, NVIDIA reported in accordance with the principles and guidance of the World Resources Institute (WRI) and the World Business Council for Sustainable Development's (WBCSD) The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard, Revised Edition, GHG Protocol Scope 2 Guidance: An amendment to the GHG Protocol Corporate Standard.

NVIDIA obtained limited assurance over our reported GHG emissions metrics. More information about how we calculate our emissions, emission factors used, and limited assurance can be found in our management's assertion and the Report of Independent Accountants.
